49 Benign and Malignant Eyelid Lesions: Clinically Relevant Advances

9:00 to 11:25 AM

Auditorium, Level III—EAST

Combined Meeting with the American Association of Ophthalmic Pathologists

Presiding Officer: Arnall Patz, MD, Baltimore, MD

Chairperson: Meryn M Rodrigues, MD, PhD, Baltimore, MD

This symposium will highlight recent advances in the diagnosis, pathology and treatment of benign and malignant lesions of the eyelid. Discussion will cover common inflammatory and neoplastic diseases, including collagen diseases, carcinomas and pigmented lesions. The role of new immunocytochemical techniques for analysis of eyelid lesions will be discussed. Practical approaches to the diagnosis and treatment of these diseases, based on an understanding of the underlying pathophysiology will be emphasized.
