## Age-Related Macular Degeneration

3:00 to 5:04 PM

Room: Arena, Level 3 – East

*Combined Meeting with the American Association of Ophthalmic Pathologists*

*Presiding Officer: Richard S Ruiz, MD, Houston, TX*

*Chairperson: Elise Torczynski, MD, Chicago, IL*

This symposium will review structural and molecular studies of the macula and the development of subretinal membranes. Factors in those at risk to develop neovascular membranes, some newer clinical techniques to evaluate the macula and subretinal neovascularization, as well as treatment of age-related macular degeneration will be discussed.
