Ocular Disease in Children: Seeing Into the Future

10:05 AM to 12:00 Noon

Room: CTR – Gateway Ballroom

Combined Meeting with the American Association of Ophthalmic Pathologists

Presiding Officer: Marilyn T Miller, MD, Chicago, IL

Chairperson: Joseph W Sassani, MD, Hershey, PA

Visual loss in a child represents a tragedy that is compounded in many ways. Not only does it represent a disability, which may limit the child's personal development, but it also may represent a devastating personal tragedy for the child's family, and an economic burden to society. Additionally, visual disturbances may reflect life-threatening systemic diseases. In this symposium, we focus on ocular disease in children, and particularly on those factors related to prevention or amelioration of the consequences of such disease. Epidemiology, socioeconomic factors, and pathophysiology will be discussed from this perspective. Our goal is to provide information that will be most useful to the comprehensive ophthalmologist seeking to keep our children seeing into the future.

10:05 AM

Introduction

Joseph W Sassani, MD, Hershey, PA

10:10 AM

Child Abuse

Victor M Elner, MD, PhD, Ann Arbor, MI

10:20 AM

Phakomatoses

Hans E Grossniklaus, MD, Atlanta, GA

10:30 AM

Retinopathy of Prematurity

Marilyn C Kincaid, MD, St. Louis, MO

10:40 AM

Conjunctival Biopsy in the Diagnosis of Pediatric Systemic Disease

David J Wilson, MD, Portland, OR

10:50 AM

Glaucoma

Kenneth B Simons, MD, Milwaukee, WI

11:00 AM

Pigmentary Abnormalities

Steven A McCormick, MD, New York, NY

11:10 AM

Sexually Transmitted Disease and Simulating Conditions

J Douglas Cameron, MD, Minneapolis, MN

11:20 AM

Pediatric Orbital Lesions

Carol L Shields, MD, Philadelphia, PA

Zimmerman Lecture

11:30 AM

Introduction

Joseph W Sassani, MD, Hershey, PA

11:33 AM

Zimmerman Lecture: Intrauterine Factors and Anomalous Anterior Ocular Development

William H Spencer, MD, San Francisco, CA

11:58 AM

Presentation of the Zimmerman Medal

Alan H Friedman, MD, New York, NY

12:00 Noon

End of Session
