## UPDATE ON OCULAR MALIGNANT TUMORS FOR THE PRACTICING OPHTHALMOLOGIST

**10:00 AM - 12:00 PM**  
**Room: E451**

Combined Meeting with the American Association of  
Ophthalmic Pathologists

*Presiding Officer: Kenneth D Tuck, MD, Roanoke, VA*  
*Chairperson: Seymour Brownstein, MD, FRCS,*  
*Ottawa, ON, Canada*

Malignant ocular tumors are important causes of visual morbidity and patient mortality. This symposium will emphasize retinoblastoma, metastatic tumors, conjunctival melanocytic proliferations, and lymphoid neoplasms. Our aim is to provide an update and overview of each subject for the practicing ophthalmologist, as well as some recent highlights that

should also prove to be stimulating to the ophthalmic pathologist and ocular oncologist. The subject of malignant melanoma of the uvea is not included, since it will be comprehensively reviewed in the Jackson Memorial Lecture by Dr. Daniel Albert.

### Zimmerman Lecture

**10:00 AM**

#### **Introduction**

*Seymour Brownstein, MD, FRCS, Ottawa, ON, Canada*

**10:05 AM**

#### **Zimmerman Lecture: The Relevance of Ophthalmic Pathology after 100 Years as a Specialty**

*Alec Garner, MD, PhD, London, England*

**10:30 AM**

#### **Presentation of the Zimmerman Medal**

*Elise Torczynski, MD, Chicago, IL*

**10:33 AM**

#### **The History of the American Association of Ophthalmic Pathologists**

*Morton E Smith, MD, Madison, WI*

**10:40 AM**

#### **A Century of Changing Experiences and Concepts about Retinoblastoma**

*Lorenz E Zimmerman, MD, Kensington, MD*

**10:50 AM**

#### **Practical Applications of Genetic Research in Retinoblastoma**

*Brenda L Gallie, MD\*, Toronto, ON, Canada*

**11:00 AM**

#### **Current Approaches to the Diagnosis of Retinoblastoma**

*David H Abramson, MD, New York, NY*

**11:10 AM**

#### **Update on the Management of Retinoblastoma**

*Jerry A Shields, MD, Philadelphia, PA*

**11:20 AM**

#### **Pathology of Metastatic Tumors to the Globe and Ocular Adnexa**

*Ramon L Font, MD, Houston, TX*

**11:30 AM**

#### **Advances in the Diagnosis and Management of Metastatic Tumors to the Eye and Ocular Adnexa**

*Devron H Char, MD, San Francisco, CA*

**11:40 AM**

#### **Update on Proliferative Melanocytic Lesions of the Conjunctiva**

*Robert Folberg, MD, Iowa City, IA*

**11:50 AM**

#### **Advances in the Diagnosis and Management of Proliferative Lymphoid Lesions of the Ocular Adnexa and Orbit**

*Frederick A Jakobiec, MD, DSc, Boston, MA*

**12:00 PM**

**End of Session**
