

# 1998 New Orleans

4:00–5:30 PM  
Session Room 2, Level I

## Combined Meeting with the American Association of Ophthalmic Pathologists

*Presiding Officer: William H Spencer, MD, San Francisco, CA*

*Chairperson: Curtis E Margo, MD, MPH, Lakeland, FL*

This symposium reviews the pathobiology of selected diseases of the cornea and describes how this knowledge applies to clinical care. Speakers will discuss the corneal manifestations of systemic disease, the changing patterns of corneal infections, the pathogenesis of corneal dystrophies, the mechanisms of corneal graft failure, the pathogenesis of peripheral corneal ulceration, and the indications for and techniques of corneal biopsy.

4:00 PM

### Introduction

*Curtis E Margo, MD, MPH, Lakeland, FL*

### Zimmerman Lecture

4:01 PM

### Introduction

*Curtis E Margo, MD, MPH, Lakeland, FL*

4:02 PM

### Zimmerman Lecture: Amyloid and the Cornea

*Andrew P Ferry, MD, Richmond, VA*

4:29 PM

### Zimmerman Medal Presentation

*Narsing A Rao, MD, Los Angeles, CA*

4:30 PM

### The Corneal Manifestations of Systemic Disease

*Henry D Perry, MD\*, Rockville Centre, NY*

4:40 PM

### The Changing Patterns of Corneal Infection

*L David Ormerod, MD, Columbia, MO*

4:50 PM

### Advances in Corneal Dystrophies

*Gordon K Klintworth, MD, Durham, NC*

5:00 PM

### The Pathogenesis of Corneal Graft Failure

*Edward J Holland, MD, Minneapolis, MN*

5:10 PM

### Pathogenic Mechanisms in Peripheral Corneal Ulceration

*C Stephen Foster, MD, Boston, MA*

5:20 PM

### Corneal Biopsy: Indications, Technique, and Results

*Debra J Shetlar, MD, Houston, TX*

5:30 PM

### End of Session
