## SYM16 Ophthalmic Pathology and Its Relation to Systemic Disease

*Combined meeting with the American Association of Ophthalmic Pathologists (AAOP)*

Ocular manifestations of systemic disease are important because these may be the presenting signs of an illness. Ophthalmologists may therefore be the first physicians to diagnose a systemic disease. In this symposium, a case presentation format will be used to discuss some of these manifestations, incorporating histopathologic confirmation and state-of-the-art molecular techniques used in diagnosis and assessment of prognosis. It is also paramount to distinguish the eye's natural aging process from true pathologic alterations. As many practicing ophthalmologists may encounter and/or treat patients with these diseases, an understanding of the current diagnostic procedures and prognostic implications is important in managing these patients.

**Date and Time:** Monday, October 26, 2009 8:30 AM - 10:00 AM

**Location:** Moscone Center

**Room:** GATEWAY BALLROOM 104

### Chairs:

*Patricia Chevez-Barrios MD\**

8:30 AM	<b>Introduction</b>	<i>Patricia Chevez-Barrios MD*</i>
8:32 AM	<b>Common Ocular Findings in Aging</b>	<i>Nick Hogan MD**</i>
8:40 AM	<b>Ophthalmic Manifestations of Multiple Myeloma</b>	<i>Tatyana Milman MD</i>
8:48 AM	<b>Second Primary Malignancies in Hereditary Retinoblastoma</b>	<i>Joan M O'Brien MD*</i>
8:56 AM	<b>Ocular Involvement of Phacomatosis and Molecular Diagnosis</b>	<i>Thomas J Cummings, MD</i>
9:04 AM	<b>Ocular Involvement in the Newly Described IgG4-Related</b>	<i>Diva R Salomao MD</i>
9:12 AM	<b>Endogenous Endophthalmitis and Systemic Disease</b>	<i>Geeta K Vemuganti MD</i>
9:20 AM	<b>Metastatic Disease Involving the Ocular Tissue</b>	<i>Carol L Shields MD</i>
9:28 AM	<b>Zimmerman Lecture</b>	
9:28 AM	<b>Introduction to the Zimmerman Lecture</b>	<i>Martha Jean Farber MD</i>
9:33 AM	<b>Zimmerman Lecture—Ophthalmic Pathology: Past, Present, and Future</b>	<i>Morton E Smith MD*</i>
9:57 AM	<b>Presentation of Zimmerman Medal</b>	<i>David J Wilson MD*</i>
10:00 AM	<b>End of Session</b>
